SKILLS

- TypeScript, JavaScript, Node.js (NestJS, Express), React, Angular, Next.js, Flutter
- HTML5/CSS3, SCSS, Bootstrap, Material UI
- PostgreSQL, MySQL, MongoDB, Redis, RDS, OpenSearch, ElasticSearch
- RabbitMQ, Socket.IO, GraphQL, REST APIs, Rudderstack, GA4
- AWS (Lambda, ECS/Fargate, CDK, Pulumi, EventBridge, SQS, SNS, CloudWatch, Secrets Manager, Athena, Redshift), Docker, Kubernetes
- CI/CD (CodePipeline, Jenkins, GitHub Actions), GitOps, Automated Testing (Jest, Playwright), Agile/Scrum
- Microservices Architecture, Infrastructure as Code, HIPAA Compliance

CERTIFICATIONS

- AWS Certified Solutions Architect
- AWS Certified DevOps
- AWS Certified Developer

PROFILE

Strategic engineering leader with 10+ years of experience building and scaling cloud-native platforms. Proven track record in leading high-performing distributed teams, driving DevOps and platform engineering initiatives, and aligning technical vision with business growth. Expert in delivering scalable solutions, automation-first cultures, and modern software delivery practices.

WORK EXPERIENCE

Aircall | Contracted via Turing
05/2024 - PRESENT
Senior Software Engineer

- Delivered full-stack expertise in a flat-hierarchy environment, owning backend (Node.js, AWS Lambda), frontend (React, Next.js), infrastructure, IaC (AWS CDK, CloudFormation), and CI/CD pipelines
- Established comprehensive testing (unit, integration, E2E) and created scalable microservice/serverless boilerplates to standardize development workflows

Technology Rivers
09/2022 - 05/2024
Director of Development

- Led engineering teams and processes for a fast-paced startup, ensuring timely delivery of 7+ projects while aligning with product roadmaps and enterprise milestones.
- Established best practices in DevOps, Platform Engineering, and code quality, directly improving velocity and output reliability.
- Mentored and scaled technical talent, fostering career growth and retention through hands-on leadership and audits.
- Collaborated with leadership to implement scalable engineering strategies, balancing rapid iteration with long-term architectural resilience.

Turing
07/2021 - 09/2022
Senior Software Engineer

- Served as Release Manager and Frontend Lead for Turing's core product, optimizing workflows and mentoring teams in MERN stack and ElasticSearch integrations.

Truemeridian
05/2017 - 07/2021
Full Stack Engineer

- Worked on many technologies including Web JS, Mobile and Blockchain.Contributed in more than 8 projects

Locopixel
06/2015 - 05/2017
Full Stack Developer

- Worked as MEAN Stack Developer in more than 3 projects Technologies used: Angular, NodeJS + Express, MYSQL, AWS, Google Chrome Extensions
